

## ITEMS OF INTEREST IN AND ABOUT TOWN

News and Gossip of Washington and Washingtonians Tensely Told.

William J. McDonald, a famous captain of the Texas Rangers, now United States marshal in Texas, wanders through the cavernous corridors of the Department of Justice building occasionally and evokes reminiscent stories of his adventurous life. This one sounds like Bill Sterrett, of Texas.

It appears that a Texas town where a riot was in progress had sent out a hurry call for Rangers, and the train bearing them was anxiously awaited. The train rolled in and Captain Bill dismounted. "Where's the Rangers?" asked the mayor at the station. "There ain't no Rangers," Captain Bill informed him. "Only one man!" shouted the surprised mayor. "Only one man, h—!" returned Captain Bill disgustedly. "There ain't no riot, is there?"

## NEW MILLS MAY END PRINT PAPER FAMINE

Officials Say Supply Will Be Sufficient When New Plants Are in Operation.

Operation of several new mills will greatly relieve the "famine" situation in news print paper manufacture, officials here believe.

It was declared today that the additional output would sufficiently increase the supply to meet all demands. The Federal Trade Commission in its investigation into the "paper famine" has found that manufacturers intend putting up eleven new mills—four this year and the remainder next year. At present 80 per cent of the news print paper used in this country is made by forty-five mills, owned by thirty concerns. The addition of eleven new mills will materially increase the output. However, it is not believed that there will be any immediate decrease in the cost of paper owing to the commission's probe. In fact, it is likely that when next year's contracts come to be made a greater price than the present will be demanded by manufacturers and jobbers.

## Heavy Registration Is Made in Night School Classes of Washington

Demands Made by Students for Many Forms of Instruction—More Than Two Thousand Pupils Are Already Enrolled.

Two thousand and fifty pupils, a record attendance, are now enrolled in the night schools of the District, according to W. B. Patterson, director of the night schools.

New classes are being asked for every day. A class in sewing at the Northeast Industrial School is to be added to the one already there. About two weeks ago it was stated that if ten girls asked for sewing at that school, a class would be formed. This is representative of the phenomenal growth of the night schools, due to the addition of classes that were desired by the residents of a community.

**Divide Salesmanship Class.**  
The salesmanship class at the Thompson had to be divided into two parts and another teacher secured because of the large number who enrolled. The sewing class at the French School probably will have to be divided into two parts. There are now twenty-one in the citizenship class at the Jefferson.

Business High night school has the largest number of students enrolled at any one school, 839 having registered there. McKinley Manual Training School is second with 811.

**Attendance Increases.**  
The Wilson Normal School Community Center School has a rapidly growing attendance, new courses being added every class night. The parliamentary law class at that building is proving especially popular. While the community school is not directly connected with the night school system, the system has made itself responsible for those courses which are directly related to the public school work. The recent request of a labor union to have a journeyman printer appointed as instructor of printing in the school will probably be considered soon, since
